# About Alela Technologies

Alela Technologies Ltd is a South Sudanese based technology company that provides innovative ICT solutions for businesses, individuals and NGOs. We work with organizations and individuals to help them create efficient operations, build ICT literate human capital, tell captive stories, and improve their online presence.

We strive to utilize the latest and up-to-date technology "Alela Tech" to help our clients realize their dream. Being people oriented is in our DNA; we empower our customers, employees and partners with what they need to succeed; at Alela it is all about making people realize their dreams.
